Our Solution(s) Run Code

Solution 1 Solution 2 Solution 3 Solution 4

```go
// Copyright © 2020 AlgoExpert, LLC. All rights reserved.

package main

// O(n^2) time | O(n) space
func IsPalindrome(str string) bool {
  reversed := make([]byte, len(str))
  for i := len(str) - 1; i >= 0; i-- {
    j := len(str) - i - 1
    reversed[j] = str[i]
  }
  for i := range str {
    if reversed[i] != str[i] {
      return false
    }
  }
  return true
}

```

Your Solutions Run Code

Solution 1 Solution 2 Solution 3

```go
package main

func IsPalindrome(str string) bool {
  // Write your code here.
  return false
}

```

Our Tests

Custom Output Submit Code

```
}

func (s *TestSuite) TestCase23(t *testing.T) {
    expected := true
    output := IsPalindrome("a")
    require.Equal(t, expected, output)
}

func (s *TestSuite) TestCase24(t *testing.T) {
    expected := false
    output := IsPalindrome("ab")
    require.Equal(t, expected, output)
}

func (s *TestSuite) TestCase25(t *testing.T) {
    expected := true
```

Run or submit code when you're ready.
