```

Solution 1      Solution 2      Solution 3

```
1  class Program {
2      public static boolean isPalindrome(String str) {
3          // Write your code here.
4          return false;
5      }
6  }
7
```

## Our Tests

Custom Output

Submit Code

Submit Code

```
10 # Write event to event program collection
11 }
12
13 # Read
14 # Read event from event program collection
15 # Write event to event program collection
16 }
17
18 # Read
19 # Read event from event program collection
20 # Write event to event program collection
21 }
```

Run or submit code when you're ready.
