37
38        public BinaryTree(int value) {
39            this.value = value;
40        }
41    }
42 }
43
```

Solution 1Solution 2Solution 3

```
1
2 public class Program {
3     public static void InvertBinaryTree(BinaryTree tree) {
4         // Write your code here.
5     }
6
7     public class BinaryTree {
8         public int value;
9         public BinaryTree left;
10        public BinaryTree right;
11
12        public BinaryTree(int value) {
13            this.value = value;
14        }
15    }
16 }
17
```
