Solution 1 Solution 2 Solution 3 Solution 4

```
Your Solutions
```

```
public class Program {
  public static bool IsPalindrome(string str) {
    // Write your code here.
  return false;
}
}
```

```

public class Program {
    // O(n) time | O(n) space
    public static bool IsPalindrome(string str) {
        return IsPalindrome(str, 0);
    }

public static bool IsPalindrome(string str, int i) {
    int j = str.Length - 1 - i;
    return i >= j ? true : str[i] == str[j] && IsPalindrome(str, i + 1);
}

}

}
```

Run or submit code when you're ready.
