Our Solution(s)   Run Code

Solution 1   **Solution 2**

```python
# Copyright © 2020 AlgoExpert, LLC. All rights reserved.

# O(n) time | O(d) space
def invertBinaryTree(tree):
    if tree is None:
        return
    swapLeftAndRight(tree)
    invertBinaryTree(tree.left)
    invertBinaryTree(tree.right)

def swapLeftAndRight(tree):
    tree.left, tree.right = tree.right, tree.left
```

Your Solutions   Run Code

Solution 1   **Solution 2**   **Solution 3**

```python
def invertBinaryTree(tree):
    # Write your code here.
    pass
```

Custom Output   **Raw Output**   Submit Code

```python
def invertBinaryTree(tree):
    # Write your code here.
    pass
```

Run or submit code when you're ready.
