Our Solution(s)   Run Code

Solution 1   **Solution 2**

```python
# Copyright © 2020 AlgoExpert, LLC. All rights reserved.

# O(n*2^n) time | O(n*2^n) space
def powerset(array):
    subsets = [[]]
    for ele in array:
        for i in range(len(subsets)):
            currentSubset = subsets[i]
            subsets.append(currentSubset + [ele])
    return subsets

```

Your Solutions   Run Code

Solution 1   **Solution 2**   **Solution 3**

```python
def powerset(array):
    # Write your code here.
    pass

```

Custom Output   **Raw Output**   Submit Code

```python
def powerset(array):
    # Write your code here.
    pass

```

Run or submit code when you're ready.
